

# IRIDIUM - SUBSCRIPTION EMERGENCY

**IRIDIUM World Emergency Postpaid** Versione **10** valido dal 01/04/2018

Activation - one off (Include SIM CARD and Activation Cost)	\$ 40.00 ( 0.00*)
Annual Fee (12 months in advance)	USD 729.00 ( 0.00*)
Cash Deposit (It is for each single line activated and it will be paid back the month after the contract is closed)	EUR 300.00 ( 0.00*)
Contract Duration (Contract will automatically renew for the same period if is not Deactivated with 90 day in advance notice)	12 month
Included Minutes per month (if not used will be lost at the end of the month)	0 minutes

IRIDIUM EMERGENCY This subscription is designed for those customers who use the satellite phone as a resource for safety at sea, in the mountains or to save on roaming charges when traveling abroad. It has the advantage of a low monthly fee to be paid annually in advance against a slightly increased cost of individual calls. So it is ideal for those who use just the phone and not want to worry about recharging a prepaid card.

Your do not have to add VAT or TAXES to your DEPOSIT. GEOBORDERS have the right to modify your deposit according to your usual call charges volume

#### COVERAGE MAP

#### IRIDIUM WORLD SERVICE

Iridium provides the only truly global satellite voice and data solutions on the planet. Work or play anywhere on earth and enjoy complete coverage. This includes oceans, airways and Polar Regions.

The Iridium constellation consists of 66 low-earth orbiting (LEO), cross-linked satellites operating as a fully meshed network. Iridium has the largest commercial satellite constellation in the world and delivers essential communications services to and from remote areas where no other form of communication is available. This is what makes the Iridium network unique.

**The Iridium network provides global coverage however; Iridium complies with U.S. embargo restrictions** and as such is prohibited from providing products and service to the following countries: Taliban controlled Afghanistan, Cuba, Iran, North Korea, Syria and Sudan.

Since this is beyond Iridium's control, each country is different and regulations may change without notice; it is best to check with the local Consulate or Customs offices for current details.

The embargoed countries where a satellite phone will work in these countries (we cannot guarantee service), but there (may be) issues taking an Iridium phone into these areas at customs/border patrols: Cuba, Iran, Libya, Sudan, Angola & Yugoslavia. **You may need special government permission to bring a satellite phone into embargoed countries.**

## COST OF OTHER OPERATIONS

### GEOBORDERS INFORMS

Dear Customer,

the service provided from Iridium Communications Inc. has 100% coverage of the earth's surface.

The IRIDIUM provides the SMS to email but no arrangements for sending two-way SMS to all operators worldwide.

NB All satellite users are not empowered to call special numbers of individual nations, such as: Emergency services, toll-free numbers, special numbers or premium, etc.. The customer will find the numbers pointing national service that wants to call.

### **TO USE IRIDIUM PHONE AND SBD IN RUSSIA YOU NEED A REGISTRAION**

All phones and SBD going to Russia must do an online registration on IRIDIUM RUSSIA website

[www.iridium-russia.com](http://www.iridium-russia.com)

- **This registration is FREE of charge**
- **This registration will last ONLY 6 MONTHS except for Aircraft that will last 12 MONTHS (and need to be done again if required)**
- **All Calls will be routed throught IRIDIUM GATEWAY in Russia**

Registration information is provided for compliance with Russian telecommunications regulatory requirements. Iridium Russia will use and disclose registration information only to meet its obligations under Russian law. Subscribers registering are responsible for the accuracy of their data entered and registration is possible only through your service provider or by going to [www.iridium-russia.com](http://www.iridium-russia.com), a website owned and operated by Iridium Russia.
